SHIMJITH T

CAREER OBJECTIVE

Aspiring software developer and BCA student passionate about building practical, user-focused applications. Eager to leverage problem-solving skills and modern web & mobile development knowledge to contribute to dynamic tech teams. Driven by curiosity to learn emerging technologies, write clean efficient code, and create solutions that make a positive impact.

EDUCATION

• Bachelor of Computer Application (BCA)

CAS IHRD, Kozhikode

2023 – 2026 • Currently in 2nd Year

Relevant Coursework: Data Structures, DBMS, Web Development, Object-Oriented Programming

TRAINING / COURSE EXPERIENCE

• Artificial Intelligence - Python & ML Basics

NIELIT, Calicut • Oct 2024

Completed hands-on training in AI fundamentals using Python, machine learning concepts, data processing, and simple predictive modeling. Worked on a mini-project for sentiment analysis using natural language processing techniques.

• Mobile App Development with Flutter

Self-paced Certification • Dec 2024

Built multiple cross-platform mobile apps using Flutter & Dart, focusing on responsive UI, state management with Provider, and Firebase integration for user authentication and real-time data. Gained practical experience in debugging, version control, and app prototyping.
